

**IN THE DRAWINGS**

The Examiner's permission is requested to make the following two changes to FIG. 3. The first change is to insert reference numeral 306 to properly refer to the "stator" to correspond to the accompanying description in the text. The second change is to delete the reference  $L_2$ . No new matter has been added. As required under 37 CFR 1.84 an "Replacement Sheet" for FIG. 3 is attached hereto.

In addition the specification at the paragraph on page 10 being on line 14 has been amended to clarify the flow path of L1 is represented in FIG. 3 by a chain-dotted line. This is shown in the substitute specification.
